Gregory Allord  
US Geological Survey  
505 Science Drive  
Madison WI 53711

Mr. Allord:

CDW•G is in the process of reviewing the maintenance records from the previous CLP agreement. CDW•G will dedicate a member of our team to call the contacts listed on the Excel Document provided by USGS. CDW•G will also contract individuals that have purchased maintenance from the current agreement. When speaking to the contact CDW•G will provide the following information, name of the program, license number, and a way to source the media, (per our conversation). Once the list has been called on CDW•G will send you a list with the date and contact we informed. CDW•G is in the process of reviewing the current standings with Adobe; once the January total is complete we will forward the summary to your attention. This will include a breakdown by category.

On Friday January 29<sup>th</sup>, 2004 CDWG received notice that Adobe posted the Creative Suites part number on the internal partner site under the CLP program. CDW•G has received that information and is in the process of requesting that this be added to CDW•G's GSA schedule. CDW•G will inform USGS once it has been added to our schedule.

Thank you for your time, I look forward to providing an update to you in the near future. Please contact me with any questions or concerns.

Ben Bourbon
